RE: Special Permit Application 14832-N

Sirs;

The comments below are being submitted in response to the Federal Register Notice dated April 13, 2009, regarding Trinity Industries' Special Permit Application #14832-N.

Olin Corporation is a large-volume producer and shipper of chlorine; as such, we maintain a sizable number of chlorine tank cars in our railcar fleet. In addition, we recently ordered 150 new chlorine cars which are of the design covered by the referenced Special Permit. A successful approval of this special permit is of great importance to us, therefore we request that PHMSA complete their review of this special permit as soon as is feasible.

We appreciate the opportunity to present these comments.

Sincerely,

Tom Tirabassi
Director of Logistics
Olin Chlor Alkali Products Division
